*Downstream processing and biochromatography*  
*Purification of proteins, other biomolecules and macromolecules*  
*Biomolecules characterization,*  
*Tools and methodology for biology and “omics”.*  
*Health , biomedical, food analysis,*  
*Biopharm - pharm & environmental analysis*

# International Bioseparation Contest for young scientist in protein purification & characterization

The goal of the contest is to promote Young Scientists in the field of Bioseparation. PhD students and young Post-Doctoral candidates (within 2 years after PhD) who present their results at this symposium will be considered for this award.

## Invited oral communications

## Three PRIZES: Gold, Silver and Bronze associated with prizes:

1500 € for Gold  
750 € for Silver  
375 € for Bronze

One Poster Prize: 250 €

## Oral communications & Poster session Industrial exhibition & workshops

## Local Organizing Committee
